Better and more economical than liquid antiseptics FOR ALL TOILET USES.

PAXTINE
TOILET ANTISEPTIC

Gives one a sweet breath; clean, white, germ-free teeth—antiseptically clean mouth and throat—purifies the breath after smoking—dispels all disagreeable perspiration and body odors—much appreciated by dainty women. A quick remedy for sore eyes and catarrh.

A little Paxtine powder dissolved in a glass of hot water makes a delightful antiseptic solution, possessing extraordinary cleansing, germicidal and healing power, and absolutely harmless. Try a Sample. 50c. a large box at drugists or by mail.
THE PAXTON TOILET CO., BOSTON, MASS.

THEY ARE ONE AND A HALF.

Benham—The paper says that in Norway married people can travel for a fare and a half.

Mrs. Benham—Married people aren't one, even in Norway, are they?

A Simple Matter.
"Charley, dear," said Young Mrs. Torkins, "the paper says that the Prohibitionists have trouble with boot-leggers."

"I believe so."

"Men are so stupid! Why don't they put a stop to it by compelling everybody to wear low shoes?"

Not His Fault.
"Oratory is a gift, not an acquirement," said the proud politician, as he sat down after an hour's harangue.

"I understand," said the matter-of-fact chairman. "We're not blaming you. You done the best you could."

Taking Father's Job.
"Why should you beg? You are both young and strong."

"That is right, but my father is old and weak and can no longer support me."—Megendorfer Blatter.

By a patient loving endurance of annoyance are we preparing ourselves gradually for the discipline of trials.—E. M. Goulburn.

Know How To Keep Cool?

When Summer's sun and daily toil heat the blood to an uncomfortable degree, there is nothing so comforting and cooling as a glass of

Iced Postum

served with sugar and a little lemon.

Surprising, too, how the food elements relieve fatigue and sustain one.

The flavour is delicious—and Postum is really a food drink.

"There's a Reason"

MAKING NEW RECORDS IN AVIATION

Curtiss flying along the beach

Glenn Curtiss, one of the foremost American aviators, did some remarkably successful flying during the recent aeroplane meet at Atlantic City, N. J. He was in the air nearly every day and set an American record for a 50-mile flight by covering the distance in five mile laps along the beach in 1 hour, 14 minutes, 59 seconds. Curtiss also gave striking proof of the utility of the aeroplane in war by dropping sham bombs on the outline of a battleship marked out on the sands.

ELECTRICITY IS AID

Sir Oliver Lodge's System Supplies Artificial Sunshine.

Weighed as Business Proposition Method Has Justified Itself and Is Now Being Taken Up on Commercial Lines as Practical.

London.—In spite of the obstinate conservatism of the average farmer much has been done to carry out Sir Oliver Lodge's plan of utilizing electricity for re-enforcing the fertility of plants.

Weighed as a business proposition, Sir Oliver Lodge's system has justified itself, and what was tentative and experimental is now being taken up on commercial lines as a practical auxiliary of husbandry.

Lionel Lodge, who has control of this department of Sir Oliver's work, has explained the development of the past year or two and the hope they afford of further progress.

"Have you ever noticed what a remarkable impulse is given to a thunderstorm?" asked Mr. Lodge. "That is the effect of the strongly charged atmosphere, and our object is to supply a similar stimulus systematically."

"The growth and development of plants in the Arctic regions compares favorably with that in southern countries, and yet their summer is very short, and the sun's rays have to travel in such an oblique direction that much of their heating power is lost. Why is it, therefore, that the plants flourish? The explanation lies in the strong electrical currents which are passing from the air to the earth, the effect of which can be seen in the Aurora Borealis."

"The electric current can be generated either by a small dynamo or from the nearest supply company's mains, and by means of a transformer it is raised to the high pressure required (about 100,000 volts). The current from the transformer is more or less alternating; that is, it is not a steady current in one direction, but oscillating first in one direction and then in the opposite. For convenience we call the current in one direction positive, in the other negative. It is the positive current that we discharge

from the network of wires above the plants. Under special conditions—as where there is an excess of natural electricity—it might be advisable to use the negative, but alternating current would be of no use.

"To sort out the positive and negative currents from the transformer, valves specially invented for the purpose by Sir Oliver are used. Working exactly like the valves in an ordinary pump, they allow the current to flow in one direction only, and prevent its getting back; they thus store the electricity in the field network from which it 'fizzes' off to the plants below."

"This field network consists of fine iron wire, the wires being spread about ten yards apart and 18 feet or so above the ground. The wires are so fine that it is difficult to see them even when standing immediately below them."

"The action that the electrical discharge has on the plants, Sir Oliver suggests, may be considered as artificial sunshine, and as in no way taking the place of fertilizer. The richer the soil the larger the increase that may be expected. With more

plants, on average soil, the electrified area may be expected to yield 30 per cent. more than the non-electrified. If a higher increase than this is obtained we consider the results good and if lower poor. On rich soil very much larger percentages have been obtained. The power required is quite small, and many of the installations at present working are in unskilled hands."

ONCE A HUNTER'S PARADISE
Noted Game Preserve of Tolleston Gun Club to Be Subdivided and Cut Into City Lots.

Hammond, Ind.—Orders were given the other day to plat 1,700 acres belonging to the Tolleston Gun Club of Chicago, near Gary, into 16,000 city lots. The land originally purchased for \$17,000, now through the building of Gary is valued at \$2,000,000. It was once a hunter's paradise, owned by wealthy Chicagoans, and many bloody battles were fought between club watchmen and natives. Five lives were lost in this way. The club house was in bygone days the scene of brilliant social gatherings from Chicago at the spring and fall shootings. Wolves, pelicans and wildcats were shot in the preserves in old days.

Gold-Headed Cane Swindle

Clever Genius, in Sheer Bravado, Writes His Dupes, Telling How He Did It.

London.—Sir Robert Anderson, formerly head of the criminal investigation department at Scotland Yard, in his reminiscences in Blackwood's Magazine, tells the following story:

"A genius claimed to have discovered the secret of making gold, and he offered to sell it to a great city firm—a house whose name is in high repute not only in England but in all the capitals of Europe. By means of a process which he had discovered, the bulk of any quantity of gold could be increased by one-half, at trifling expense."

"His dupes accepted his terms, subject to his giving proof of the value of his discovery, and to test it they proposed to supply him with a hundred sovereigns and the needed plant. He thought scorn of working on such a petty sum as that; it would be

waste of time, for the process was a tedious one.

"Finally it was arranged that he should have \$100,000 in sovereigns, and a house was taken in Leman street, Whitechapel, and there a laboratory was fitted up for his use. The gold was placed in tanks provided for the purpose, the needed chemicals were supplied, and the experiment proceeded, with elaborate precautions against larceny or fraud."

"The man was emphatic in insisting on two points; no one but himself was to enter the laboratory; and he was to be rigorously searched every time he passed out. After many weeks, during which his visits were frequent, he disappeared; and when eventually the door was forced, the tanks which had contained the gold were empty, and the bottles which contained the chemicals were full. What had become of the \$100,000? The fullest inquiry only served to elicit proof that the man had been searched with exemplary care at every visit."

"The mystery would have remained forever unsolved if the criminal had not himself supplied the solution of it. In sheer bravado and pride in his achievement, he wrote to the firm he had swindled, telling them of his appreciation of the money, and of his confidence that they would rather lose twice as much than incur ridicule on every exchange in Europe by a prosecution which would disclose their folly. And then he revealed his method. Every time he left the laboratory the gold-headed cane he carried was packed with sovereigns."

GIRLS ARE REPLACING BOYS

Object of Innovation Is to Reduce the Number of Messengers Who Are Later Unable to Get Work.

London.—London is soon to have girl postoffice messengers.

The innovation will probably be tried first in some of the large provincial offices, and if successful will be extended to St. Martin's-le-Grand and the rest of the kingdom. The object of the movement is to reduce the number of boy messengers—many of whom are unable to obtain situations when they grow up.

The girl messengers will be employed in indoor work of an elementary nature, and it is understood that permanent positions will be found for them in due course.

For Mine Rescue Stations. Victoria, B. C.—The British Columbia government has placed orders in Pittsburg for complete apparatus for three mine rescue stations to be installed in the principal coal mining areas of British Columbia.

"PLAY WITH THE CHILDREN"

Fabled Fountain of Youth Could Not Be More Potent Than Association With Little Ones.

"Play with the children!" was the recurrent advice of a wise and successful man. "This will keep your heart young, your viewpoint fresh, your wit sparkling. The child heart is at once the purest and the happiest in nature; the child tongue is a transfiguring power."

Something of this indubitable power attaches to good stories of those naive and innocent "little ones" scripturally declared specially blessed and potent. The child mind transforms, the child touch lifts to glad laughter incidents and accidents not otherwise worth noting. Witness this little tale of the careful mother to whom came a tiny son all agog over the acquirement of new and forbidden knowledge.

"Mother!" cried the child, baby eyes shining, baby cheek glowing, "do you know what 'I'll be hornswoggled' means?"

"No, dear," said the mother, solemnly, seizing the opportunity to implant a lesson. "I'm sure I do not."

"Well, I do," was the ecstatic answer, the suggested lesson being utterly ignored. "It means just the same as 'I'll be gold-darned!'"

The Return of Ferguson.

A night clerk in a hotel sat dozing at his desk at about 1 a. m., when a man in evening clothes came in as if laboriously trying to walk a crack, and said:

"I'm Ferguson; key to room 44."

The guest disappeared in the direction of his room, one flight up. In a few minutes a man in his shirt sleeves with a flattened silk hat on the side of his head, and with one shoe on a foot and the other in his hand, came in and said to the clerk:

"I'm Fershon; key to-for-for."

"Mr. Ferguson just took his key and went up."

"Mr. Ferguson just fell out window 'n' left key inside. Kindly lemme have 'nother."—Everybody's.

He Knew the Kind.

Little Edward, aged four, was an only child. He was anxious for a baby sister, and was talking of it one day with a friend of the family. In the friend's family was a baby girl of one year. The lady said, "Edward, you may have my baby; she is pretty and sweet."

"Oh," said Edward, "I don't want an old baby. I want a bran new one wif noffin on but talcum powder."—Red Hen.

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it Bears the Signature of *Dr. H. H. Fletcher*. In Use For Over 30 Years. The Kind You Have Always Bought.

Quantity Not Quality.

Teacher—Willie, have you whispored today without permission?

Willie—Yes, wunst.

Teacher—Johnnie, should Willie have said "wunst?"

Johnnie (triumphantly)—No, ma'am, he should have said twist.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

The supply of talk always exceeds the demand.

Despair and Despondency

No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured completely upset the nerves if long continued.

Dr. Pierce's Favorite Prescription is a positive cure for weakness and disease of the feminine organism.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

It allays inflammation, heals ulceration and soothes pain. It tones and builds up the nerves. It fits for wifelyhood and motherhood. Honest medicine dealers sell it, and have nothing to urge upon you as "just as good."

It is non-secret, non-alcoholic and has a record of forty years of cures. Ask Your Neighbors. They probably know of some of its many cures.

If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Galva-nite
THE TRIPLE ASPHALT COATED, NICA PLATED
Roofing
SAVES YOU MONEY
Use Galva-Nite and save all the money you are spending for repairs, patching, painting and fixing up your roof.
Galva-Nite has an outside coating of flaked mica that keeps the oils inside and defies the weather. It is pliable and easy to handle. One man can lay it with a sharp knife and a hammer.
It comes in rolls of 108 square feet, with nails, cement, and full directions for laying. When laid it is a one-piece roof that will last as long as the building. Samples sent with Free Book which tells all about roofs.

THE Famous Rayo Lamp
Once a Rayo user, always one.
The Rayo Lamp is a high grade lamp, sold at a low price. There are lamps that cost more, but there is no better lamp made at any price. Constructed of solid brass; nickel plated—easily kept clean; an ornament to any room in any house. There is nothing known to the art of lamp-making that can add to the value of the RAYO Lamp as a lighting device. Every dealer everywhere. If not at yours, write for descriptive circular to the nearest agency of the
STANDARD OIL COMPANY (Incorporated)

WANTS HER LETTER PUBLISHED

For Benefit of Women who Suffer from Female Ills

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women I felt sure it would help me, and I must say it did help me wonderfully. My pains all left me. I grew stronger, and within three months I was a perfectly well woman."

"I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. JOHN G. MOLDAN, 2115 Second St., North, Minneapolis, Minn.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.
